

Manicargua church of Christ annual report.

Greetings brothers in Christ! We hope you are doing well!

First we would like to express our gratitude for your support and prayers during 2019. This year we baptized 23 bible students, some pictures are including here:

As the church continues to grow, we do not only meet for worship on Sunday and bible studies on Wednesdays, but also have started a local leaders training program which resulted in the graduation of 15 local students. We have 3 bible classes groups which meet in different homes in our area, intended to the edification of the body of Christ.

Also, we worked to strengthen the faith of younger saints not only teaching the Word but also carrying out outdoors activities which includes mountain hiking and evangelizing in a nearby city (Santa Clara). Pictures.

We hope these pictures help you grasp an idea of different moments of communion and celebration we have had during 2019.

For the next year we are planning to include in our agenda visiting regularly the local hospice for elderly people and the hospital as often as the authorities allow us, as well as evangelizing a new neighborhood in our area along with the continual edification of the saints.

Thank you very much for your support and prayers.

In Christ Jesus, Miguel and Ramón
